

Certificate 529463

This Diamond Foundry created diamond was graded by a GIA Gemologist on the GIA Diamond Grading Scale.

GIA DIAMOND GRADING SCALE

	GIA COLOR SCALE		CLARITY		GIA CUT SCALE
COLORLESS	D E F		FLAWLESS		EXCELLENT
NEAR COLORLESSS	G H I J	60	INTERNALLY FLAWLESS		VERY GOOD
ERY LIGHT	K L M	NERY VERY VERY VERY SLIGHTLY SLIGHTLY INCLUDED INCLUDED INCLUDED	VVS		GOOD
ПСНТ	O P R		VS		
	S T U		SI		FAIR
	W X Y		I		POOR

GIA GEMOLOGIST GRADING REPORT

Shape	Emerald		ıntry of Origin	United States
Date	08-13-2021		cription	DF529463
DIAMOND PR	OPORTIONS		DIAMOND GRADES - THE 4CS	
Depth	57.4%	Cara	at Weight	0.85
Crown Height	13.2%	Cole	or Grade	Н
Crown Angle	37.4°	Clar	rity Grade	VS2
Pavilion Height	40.1%	Cut	Grade	Excellent
Pavilion Angle 37.5°			ADDITIONAL GRADING	
Table Diameter	63.1%	Poli	sh	Excellent
Girdle	Slightly Thick	Syn	nmetry	Excellent
Measurements	7 x 4.79 x 2.75mm	Fluo	orescence	None

GIA GEMOLOGIST

Justin Kongsinsap

Justin Zwigsmaap

who has successfully met the requirements, thus earning recognition as a

Graduate Gemologist

Issued by the Board of Governors, upon recommendation of the faculty, with all the rights and privileges belonging thereto.

CERTIFICATION

This Certificate is guaranteed by Diamond Foundry:

In the unlikely case that your diamond turns out to not meet or exceed a 4C grade stated in this Certificate, Diamond Foundry shall, at its option: Accept the return of the diamond and provide you with a refund of the full purchase price; or replace the diamond with a diamond that meets or exceeds each of the characteristics warranted.

If you make a claim under this Warranty, you must allow Diamond Foundry to: examine the original copy of the Certificate; try and resolve your claim amicably; inspect the jewelry and any gemological evaluation on which you base your claim; remove the diamond from the jewelry for gemological examination. Diamonds must be graded as loose stones by an internationally recognized diamond grading lab. Since the diamond grading process is a subjective science, your claim is only warranted if the internationally recognized diamond grading laboratory grades your diamond at least two grades lower in color and/or clarity.

The condition of the diamond will be determined by examination under no greater than 10x magnification and by standard gemological techniques. The accuracy of angles and linear measurements will be determined by the following tolerances of $\pm 0.2^{\circ}$ and ± 0.02 millimeters.

This Warranty remains in effect in perpetuity with the original purchase proof. It covers the lack of conformity of the diamond with the 4C grades stated on this certificate at the time of sale. It does not cover damage to the diamond that occurs after delivery including normal wear & tear, cuts or scratches, consequential or incidental damages provided or allowed by an insurance coverage. This Warranty is not transferable and only applies to the original purchaser of the product. Your claim is only warranted if the internationally recognized diamond grading laboratory grades your diamond at least two grades lower in color and/or clarity.

This warranty gives you specific legal rights; it does not, in any way, affect the rights given to you by law.

Note that the Gemological Institute of America (GIA) expressly does not offer any guarantee for its own grading reports.
