The laboratory grown diamond described in this Report (Report) has been graded, tested, analyzed, examined and/or inscribed by International Gernological Institute call and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). I.G.L employs and utilizes those techniques and equipment currently available to I.G.L. including, without limitation, 10X magnification, corrected triplet loupe, binocular microscope, master color comparison stones, non-contact-optical instruments and/or processes as deemed appropriate by I.G.L. This Report includes advanced security features. A duly accredited gemologist or jeweler can advise you with respect, to the importance of and interrelationship between cut, color, clarity and card

Weight.
