The laboratory grown diamond described in this Report (Report) has been graded tested, analyzed, examined and/or inscribed by International Gemological Instituce (IGLI). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). IGLI, employs and utilizes those techniques and equipment currently available to IGLI, including, without limitation. 10% magnification, corrections control to the control of the production of the control of the c
