The laboratory grown diamond described in this Report (Report) has been graded, tested, analyzed, examined and/or inscribed by international Gemological institute (G.G.). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined alamond, with the exception of being grown by man (a manufactured product). I.G.I. employs and utilizes those techniques and equipment currently available to I.G.I. employs and utilizes those techniques and equipment grown by Manual Manu
