The laboratory grown diamond described in this Report (Report) has been graded, tested, analyzed, examined and/or inscribed by International Gemological Institute (IG.1). A laboratory grown diamond is one that has essentially the same chemical, physical and optical properties as a mined diamond, with the exception of being grown by man (a manufactured product). I.G.1. employs and utilizes those techniques and equipment currently available to IG.1. including, without limitation, 10X magnification, corrected triplet louge, binocular microscope, master color companson stones, non-contact-optical measuring device, Diamond Stare¹⁹, Diamond View¹⁹, Spectraphotometer and such other companions of the control of the contr
