## IGI LABORATORY GROWN DIAMOND IDENTIFICATION REPORT

| 10/03/2021                     |                          |
|--------------------------------|--------------------------|
| IGI Report Number              | LG494169980              |
| Shape and Cutting Style        | PRINCESS CUT             |
| Measurements                   | 4.90 X 4.82 X 3.49 MM    |
| GRADING RESULTS                |                          |
| Carat Weight                   | 0.74 CARAT               |
| Color Grade                    | н                        |
| Clarity Grade                  | VVS 2                    |
| ADDITIONAL GRADING INFORMATION | N                        |
| Polish                         | EXCELLENT                |
| Symmetry                       | VERY GOOD                |
| Fluorescence                   | NONE                     |
| Inscription(s)                 | LABGROWN IGI LG494169980 |

Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process and may include post-growth treatment Type IIa

This Laboratory Grown Diamond (LGD) described in this Report has been analyzed, graded and Laserscited® by International Gemological Initiute (GD). A LGD has sessifially the chemical, physical and aplical properties as a mined diamond, with the exception of being man-made (a manufactured product). LGD's are typically produced by CVD (chemical vapor deposition) or by HPIT (high pressure high temperature) growth processes and may include post growth modifications to change the color. [GI utilizes the most advanced techniques and equipment currently available including. Disocular microscopes, alamond color masters, non-contoct-optical measuring device, a wide range analytical techniques including FITI, UV-VIS-NIR, urama spectroscopy, and fluorescence analysis at various excitation availangths. This Report Includes advanced security features. This Report is neither a guarantee, valuation or appraisal and by making the report [GI does not age to partures or replace the articles.
