The left diagram shows a circle with a square inscribed inside it. The square is rotated 45 degrees. The circle is divided into 16 equal sectors by 17 radial lines (including the square's sides and diagonals). The right diagram shows the same circle with the same radial lines, but the sectors are now filled with a pattern of lines to create a 16-point compass rose. The points are labeled with letters: 'a' through 'p' around the perimeter and 'q' through 'r' in the center.

Red symbols indicate internal characteristics.
Green symbols indicate external characteristics.
