## LABORATORY GROWN DIAMOND REPORT

|                         |                          |
|-------------------------|--------------------------|
| May 9, 2026             |                          |
| IGI Report Number       | LG798610678              |
| Description             | LABORATORY GROWN DIAMOND |
| Shape and Cutting Style | OVAL BRILLIANT           |
| Measurements            | 8.01 X 5.87 X 3.57 MM    |

## GRADING RESULTS

|               |            |
|---------------|------------|
| Carat Weight  | 1.06 CARAT |
| Color Grade   | E          |
| Clarity Grade | VVS 2      |

### ADDITIONAL GRADING INFORMATION

|                |                                                                                               |
|----------------|-----------------------------------------------------------------------------------------------|
| Polish         | EXCELLENT                                                                                     |
| Symmetry       | EXCELLENT                                                                                     |
| Fluorescence   | NONE                                                                                          |
| Inscription(s) |  LG798610678 |

Comments: This Laboratory Grown Diamond was created by Chemical Vapor Deposition (CVD) growth process.  
Type IIa
